

Armando Salcido

Riverside, CA | 951-545-7420 | armandosalcido024@gmail.com | <https://github.com/aksalcido>

Education

University of California Irvine
B.S. Computer Science

September 2016 – June 2020

Open-Source Contribution

PlasmaPy | Python

April 2021

<https://github.com/PlasmaPy/PlasmaPy>

- Edited the flake8 metadata in the setup.cfg file by removing previously ignored lint errors
- Fixed lint errors in corresponding files that were being thrown by Flake8 tests after removal
- Communicated with maintainer for clarification on the requirements to ensure specifications were met

Projects

Brush | Node.js, Bootstrap 4, HTML/CSS

Nov 2020 - Mar 2021

<https://brush-paint-app.herokuapp.com/>

- Developed a RESTful Full Stack Web application that allows users to draw their own art on a JavaScript canvas
- Users can login/register, create/upload their art, enter comments, follow other Users, and like/favorite art
- Built with Express.js and deployed using Heroku and the cloud database MongoDB Atlas

Pacman | Python

Aug 2018 - Sep 2018

<https://github.com/aksalcido/Pacman>

- Re-engineered the famous arcade game Pacman
- Implemented in Python utilizing GUI from the tkinter library
- Enemy AI have unique movement patterns, with the primary pathfinder implemented using the Breadth-first search algorithm to find the User

Chess/AI | C++

Jan 2019 - Aug 2019

<https://github.com/aksalcido/Chess-Game-AI>

- Constructed an in-console implementation of the board game Chess with opponent AI
- Simple AI implemented with random source of entropy for randomized move
- Slightly Smarter AI is implemented with the Minimax Algorithm and Alpha-beta Pruning for best move to make based on the board

Text File Analyzer | Java

July 2021

<https://github.com/aksalcido/Text-File-Analyzer>

- Multithreaded application that analyzes text files and outputs statistics such as unique and misspelled word count
- Command-line Interface that prompts user input text files and number of threads to run for performance

Technical Skills

- **Languages:** Python, C++, Java, JavaScript, HTML, CSS, SQL
- **Tools and Frameworks:** Git, Node.js, Express.js, Bootstrap, Docker
- **Database/Other:** MongoDB, MySQL, REST Architecture, Object Oriented programming
- **Operating Systems:** Windows, MacOS, Unix/Linux
- **Coursework:** Information Retrieval, Artificial Intelligence, Operating Systems, Data Management, Computer Networks

Work Experience

Starbucks | Irvine, CA

May 2017 - Sep 2019

- Performed a multitude of tasks including assisting customers, making drinks, and cleaning
- Communicated with coworkers concerning orders or problems to improve work-flow efficiency
- Ensured customer satisfaction, resolved issues, and directed and managed a team of 10 members
